Protect yourself and the environment with the unique

RECYCLED PET PEN PRO

antibacterial

ANTIBACTERIAL

It is made of antibacterial plastic containing a special additive which releases silver ions that prevent bacteria from colonising the surface of the pen.

TESTED AND CERTIFIED

Laboratory tests have shown that up to 99.99% of bacteria and pathogens on the surface of writing instruments are eliminated. Tested according to ISO 22196-2011, the antibacterial effect is guaranteed for the entire life of the writing instrument and thus offers lasting protection.

MADE IN EUROPE

Short and fast delivery routes enable reliable and short-term production and create an additional contribution to the preservation to the environment.

CLIMATE NEUTRAL

The writing instruments are produced in Europe and finished climate neutral in the Black Forest. In this way, an additional positive contribution to the environment is made.

RECYCLED

The barrel is made of 100% recycled PET bottles. With the use of uma recycled PET PENS we assure you that a recycling process has already been supported and that the writing instruments can be fed into further recycling cycles.

RECYCLED PET PEN PRO antibacterial

0-2250 antibac

0-2250 antibac: Retractable ballpoint pen made of recycled, antibacterial rPET in a glossy finish. The ISO 22196:2011 tested antimicrobial additive of silver ions gives the rPET an antibacterial effect that reduces the adhesion and colonisation of bacteria or pathogens on the surface of the writing instrument by 99.99%. The rPET material, which is made from recycled PET bottles in Europe, is suitable for long-lasting and sustainable advertising use. The **RECYCLED PET PEN PRO antibacterial** offers several sales arguments: recycled, environmentally friendly, climate neutral and antibacterial.
